

Mateo Hysa

Entry 9

Having chosen the topic of my lab report, I began to decide what information should be included in the report. In my report, it is crucial that I demonstrate the skills that are acquired when forced into an online setting. Students are forced to become much more responsible and must manage their time very well. Having to learn in the comfort of your own home can be very distracting and can negatively influence a student's ability to learn. Additionally, examinations could be difficult when conducted at home. Many students are inclined to cheat or perform worse than those that do cheat. Students that are forced to learn in an online environment are forced to become very independent as they do not have the same amount of help and reminders as they would in a regular classroom.
